

GALILEO Life Contest

Suggested Tools

PowerPoint

<http://office.microsoft.com/en-us/powerpoint/default.aspx>

Microsoft PowerPoint is a program that allows you to create computer-based slide shows. You can either create a totally new presentation or use one of the many templates provided within the program.

Video Software:

Microsoft Photo Story

<http://www.microsoft.com/windowsxp/using/digitalphotography/PhotoStory/default.mspx>

This free software allows you to create slideshows using your digital photos. You can also touch-up, crop, or rotate pictures, add special effects, soundtracks, and your own voice narration to your photo stories.

Windows Movie Maker

<http://www.microsoft.com/windowsxp/downloads/updates/moviemaker2.mspx>

Windows Movie Maker is free software that allows you to create, edit, and share your home movies right on your computer. Build your movie with a few simple drag-and-drops.

Animoto

<http://animoto.com/>

Animoto is a free web application that automatically generates professionally produced videos using patent-pending Cinematic Artificial Intelligence technology and high-end motion design. Each video is a fully customized orchestration of user-selected images and music.

Voice Thread

<http://voicethread.com/#home>

VoiceThread is a collaborative, multimedia slide show that holds images, documents, and videos and allows people to navigate pages and leave comments in 5 ways: using voice, text, audio file, or video.

Camtasia

<http://www.techsmith.com/camtasia.asp>

Camtasia Studio software allows you to capture action and sound from any part of your desktop to produce a video in a variety of formats.
